## A GLORIOUS NEW SHRUB

Cole's 1940 Introduction. Not Patented.

Cole's Glorious. *Glorious Mockorange*—8'

(Virginal X Rosace.) A Cole origination of great merit. Mammoth flowers of snowy white; large glossy rich green foliage of leathery texture densely set on the shrub. Strong upright neat growing compact shrub, profuse in bloom. A most prominent hybridist and horticulturist who has personally done a great deal of work on Mockorange proclaims Cole's Glorious to be the finest of all.

## ROSES

We add a number of thoroughly tested Roses to our collection each year and eliminate a few of the least worth-while.

We endeavor to always have a very high class collection to meet all needs. (See pages 49 to 52.)

### NORTHERN GROWN ROSES

Our trade recognizes the uniform quality, hardiness, and "trueness to name" of Cole's Painesville Grown Roses. We have guarded this reputation zealously and have gone to no end of labor to see that we had an ample crop for our regular customers in the face, many times, of adverse economic, trade, and weather conditions.

We hope you will bear in mind the conditions herein mentioned when selecting your source of supply.

## Hardy Fuchsia "Senorita"

Not Patented

SENORITA is even more lovely than Fuchsia Scarlet Beauty, introduced in 1940, and so widely acclaimed by gardeners everywhere. Senorita is the first glorious offspring of the famed Scarlet Beauty original member of this special strain of Fuchsia riccartoni.

SENORITA, hardy and of vigorous growth, comes into flower in early August and continues its abundance of strikingly beautiful bloom until severe frost—a period when color is so limited in the garden. Reaching maturity in about three years, the plant, strongly upright, attains a height of three feet with a spread of two and a half feet.

The jewelled, pendent flowers, fully two to three inches long, of flaming rose-red with corolla of bright mulberry-purple, are borne profusely along the stems and nestled in the outer fringe of foliage. The plant, never leggy, foliage from the ground up and is a pleasing bright glossy green, providing a color combination of rare charm and beauty.
